Children.

THE FOREIGN POPULATION

A Kindergarten Memorial to Henry Ca st. and His Little Daughter Do . tny

It has been known for some time, in a general way, that preparations were taking place for the purpose of dedicating the old Castle homestead, on King street, to charitable uses. For private reasons the Castle family have in the past declined to give out details relating to the matter, but have now kind- It Was to Have Occurred ly furnished the Advertiser with a brief outline of their purpose and plans. The property that is now set aside to carry on a branch of the mission work begun years ago has an interesting history of which the following are a few of the leading facts succintly stated:

The house was built early in the thirties, by the Rev. E. W. Clark, the father of Mrs. O. H. Gulick and of Mrs. Luther Severance of Hilo. The missionaries moved from station to station in the early times and, as a result, Rev. Mr. Clark removed to another station. Mr. S. N. Castle was appointed to occupy the property. At that time Mr. Castle was the financial agent of the American Board and resided in Honolulu all his life. In later years when the homes of the missionaries in the Islands were turned over to them in fee simple, the Kawaiahao residence fell to to the Dewey arch. Here the Admiral Mr. Castle, where he resided from the pointed out the figures to Mrs. Hazen year 1837 to the time of his death in 1894-in all fifty-seven years. Mrs. 1894—in all fifty-seven years. Mrs. collected. He was saluted by a number Mary Castle, his widow, came to this of persons and bowed pleasantly in rehouse upon her arrival in 1842. Here it was where she and her husband celebrated their golden wedding in 1892. The homestead has been the birth place of all the members of the Castle family.

After the death of Mr. Castle the question of a change of residence first came up for consideration and with it came the question of the disposal of the was issued today. Eeveral other pertiold homestead. ...rs. Castle and her children felt they wanted the homestead to go on with its missionary work as in years past. As the different as in years past. As the different learned tonight that the wedding will needs of the community were being take place within the next twelve considered, appeals came in from time hours. It is likely that it will be a to time which showed the growing necessities for a home for the homeless children of the foreign population. After consideration of these appeals it was finally decided that when the time came to give up the family residence it should be devoted for a home for those children made eligible for it.

The residence is a large and commodious one and is particularly adapted for such a purpose. The main the second and third floors and several commodious fiving rooms on the first floor. These latter can easily be adaptfled for bedrooms, if required. Mrs. Shortly after breakfast tain minor conditions are included. Whatever plan Great Britain and a carpenter named Ball fell from a scaffolding to the ground and sustained ulated should be first submitted to the ratification of the United States. He was conveyed to the Queen's Hospifather of the proposes to turn over the born. Castle proposes to turn over the house rent free, to the Children's Aid Association, or some other organization that around the church knew the nature of will carry on the work, if the former association is not prepared to go so. The easters one-story wing of the building Mrs. Castle reserves for her own uses. After the family moved to Manoa valley in last March the building was put in thorough repair, new kitchen, lavatories and laundry being added, and every comfort and convenience considered in making the premises ready for its new use. Mrs. Castle hopes that every thing will be finished and the home ready for occupation by the first of the coming year.

It has been the desire of Mrs. Castle and the family that some fitting memorial should be established for the youngest son, the late Mr. Henry Castle, and his little daughter Dorothy, who were lost on the steamship Elbe early in 1895. Nothing seemed so appropriate as some provision for the education of the youth of his country. The age of his little daughter Dorothy (four and a half years) and his own deep interest in the Kindergartens. which had just then been established in Honolulu, made the choice for the morial an easy one. In carrying out this purpose and the wishes of the family, Mrs. Castle has just erected a commodious kindergarten building upon the eastern part of the premises. This school was formally opened on the 13th of the present month, with an attendance of thirty-five little ones. of all nationalities, from the neighbor ing district. The director, Miss Florence La Victoire, has been making special preparation, during the past year, for her work here, in Dr. John Dewey's school, which is connected with the University of Chicago.

THE CASTLE PLACE smounted to \$15,064,417.31 as against \$8,959,928.50 for the corresponding period of last year. The increase is \$6,094,488.81. For October the total of dutiable imports received at Honolulu was \$277,551.01; bonded, \$20,709.63; free by treaty, \$572,389.31; free by civil code, \$257,296.02, a total of \$1,127,945.97. Hilo reported \$150,693,24; Kahulul \$88. 637.14; Mahukona, \$14,956,11; Palaau, \$4.512.25. The total for the islands was \$1.387,944.71. Of dutiable articles received at Honolulu \$77,499.92 came from the United States and \$200,051.09 from all other countries; bonded, American \$6,728.58, foreign \$13,981.05; free by treaty, American \$572,389,31; foreign, nothing; free by civil code, American, \$205,622.37, foreign, \$51,-673.65. Other Island ports made no foreign importations.

Last Week.

A License Was Taken Ou: and a Rome Catholic Dispersat on Se

NEW YORK, Nov. 6.-Admiral Dewey accompanied Mrs. Mildred Hazen, to whom he is engaged to be married, on a shopping tour today. While walking on Fifth avenue the Admiral saw a little boy in charge of a nurse with an Admiral's flag in his hands.

"Hello," said the Admiral, "I cannot pass that flag." He shook the little fellow by the hand and chatted with him for a few moments.

The Admiral and Mrs. Hazen walked and explained their significance. The Admiral was recognized and a crowd turn to their salutations. Admiral Dewey was asked by a reporter when he would return to Washington.

"I have no plans," replied the Admiral. "I shall return to the hotel this

THE LICENSE ISSUED.

WASHINGTON, Nov. 8.-Admiral Dewey will in all probability be married tomorrow. His marriage license nent circumstances led to me belief that the interesting ceremony would take place this evening, but from rela-tives of Mrs. McLean it has been quiet affair and will be performed by Archbishop Keane of the Catholic Uni-versity, if he reacnes Washington in time; if not, by the Rev. James Mack-in, pastor of St. Paul's Church, which Mrs. Hazen attends.

The Admiral attended to the civil part of the preparations, but it de-volved upon Mrs. Hazen to arrange the details of the religious ceremony. A dispensation is necessary for a Roman Catholic to wed a non-Catholic, and it requires some little time to obtain this indulgence. This morning at 7 o'clock Father Mackin, accompanied by the assistant pastor, l'ather Foley, left Washington for Baltimore. No one their business. They arrived home at 6 o'clock. Father Mackin had with him the coveted dispensation, and it it was a day's labor to get it ready. This document is written in Latin, setting forth that for good and sufficient reasons Mildred McLean Hazen, a of the Catholic faith, is allowed to be united in the bonds of holy matrimony with George Dewey, a nonbeliever in the faith.

LEONIDS WERE SHY

Watchers for the Star Show Got

Nothing for their Trouble The search for leonids was not much of a success Wednesday night, few if any being seen. Mr. Davey had his photographic apparatus ready but the starry shower did not materialize. Prof. Curtis J. Lyons, who is a persistent watcher for leonids and other celestial phenomena, got out of bed at 1:30 a. m., and saw nothing more interesting than the moon. He was up igain at intervals until 5 o'clock with no better result. Talking of the matter yesterday he said that very likely the leonids fell during daylight here but had been observed on the Pacific oast of Asia and other localities where darkness came on at the right time. The shower, he remarked, was predicted for Washington on November 15th. Professor Curtis recalled a display of Andromedides which took place in November, 1891, and which was clearly visible from Honolulu and said that brilliant as the flery shower was, it did not compare with the exhibition that was probably given by the leonids in

Increased Imports.

The report of Collector of Customs Stackable shows that the imports for the tea months ending October State and no fewer than fifty others injured.

China and Japan.

IS UUT LF SAMUA

England Sells Her Island Holdings to Germany

The Trade Is, However, Subject to the Railf cation of n United States Covernment.

BERLIN, Nov. 8 .- It was officially announced this morning that an agree ment, subject to the approval of the United States, had been arrived at between Great Britain and Germany, by virtue of which the Samoa act is re pealed and the Islands of Upolu, Saval and the small adjacent islands fall to Germany as free property, and the island of Tutulia and the subsidiary isiands go to the United States. Great Britain, it is added, renounces any claim to the Samoan Islands, and Germany in return renounces any claim to the Tonga Islands and to Savage Island in favor of Great Britain, and also cedes Choiseul and San Isabel, the two easterly islands of the Solomon group, with their insular surroundings, to Great Britain. The consular representatives of the two powers in Samoa and the Tonga Islands are to be withdrawn for the present and German subjects are to have the same rights as the British subjects in regard to the free and unimpeded enlist ment of native laborers in the whole of the Solomon group in the posses-sion of Great Britain, including Choiseul and San Isabel.

At the same time an arrangement has been arrived at between the two powers by virtue of which the so-calied neutral zone in the hinterland of German Togoland and the British gold coast, Africa, will be divided in such a manner that the boundary of German and British territories will be formed by the Paka river up to a point where the latter cuts the ninth degree of latitude, thence north by a line to be fixed by a commission. To this is pended a reservation that the countries of Mamprusi and Cambaza shall fall to Great Britain and the countries of Yeudi and Nehakosi to Germany. Finally, according to the decision of the colonial council, Germany has promised to renounce ber extra-territorial rights in Zanzibar until the expiration of the commercial treaty in 1902, with the proviso that the renunciation is only effective when the other nations Zanzibar in favor of Great Britain. Regarding the agreement, it is observed the United States' consent is taken as

A further agreement concluded be United States is to the effect that the question of compensation for claims for damages during the late trouble is to be submitted to an imperial court of arbitration, which will decide all

WASHINGTON, Nov. 8 .- The State Department has not yet been advised of the agreement between Great Britain and Germany respecting the Samoan group. It is gathered, however that if the outline of the arrangement sent out in the cable advices is accurate there will be no disposition to withhold our approval, provided cer-

posed could be made only by formal treaty, which would require the aptreaty, which would require the ap-proval of the Senate. It is believed night Lieutenant Cottrell was chosen that the arrangement proposed nov will be sent to the State Department. The United States is not concerned with the amount or character of the compensation that passes between the other nations. Besides retaining the limes, recently landed from Samon by coaling station of Pago Pago, acquirthe Alameda, will probably be deing the island of Tutuila, whereon the stroyed, in view of the order prohibitharbor is located, and the three or four small islets in the vicinity, the United group on account of the presence there States will continue to enjoy by stipu- of a fruit pest. small islets in the vicinity, the United lation the privilege of trading with Apia under conditions equally as favor-

vent smuggling.

The partition of the Samoan group of islands marks the close of a longstanding source of international con-troversy and also brings about new Pacific. In the early stage of the negotiations it was agreed that the United States should have the island of Tutuila, with its valuable harbor of Pago Pago and the lesser islands of its coast, including the large islet of Manua. The negotiations then shifted to London to determine whether Germany or England should retain the two remaining islands. The nature of these later negotiations has been constantly communicated to Washington, although they have not reached the State Department, and it has been known for some days that in case Great Britain retired from Samoa, Germany would give as part compensation the large Solomon islands of San Isabel and Choiseul. These are near the British possessions in Australia, being east of New Guinea. They are twice the size of the Samoan group, but the country is mountainous and the people war

like, many being cannibals. At the British and German embassies here the announcement of the close of negotiations was received with much satisfaction. A high diplomatic official said that the agreement was due mainly to the fact that German public sentiment was averse to retiring from Samoa, and yielding to this sentiment Great Britain had solved the matter by taking an equivalent in territory

When the nerves are weak there is no telling what may happen. You are tired all the time, depressed, restless, and suffer greatly with headnehs, back-ache, neuralgia, and general discomfort. But there is a cure, as Mr. J. Riliott, of West Perth, W. A., well knows. He sends us his portrait, and says:

Constipation alone will often cause biliousness, neuralgia, and sick head-ache. Ayer's Pills are a safe and sure cure for all liver troubles. And they cure dyspepsia also. Prepared by Sr. J. C. Aper & Co., Lovell, Mass., U.S.A.
